

HardyBerm Railroad Plastic Pellet Portable Containment Berm

Prevent plastic pellets, resin chips, and nurdles from spreading with the HardyBerm Railroad Plastic Pellet Portable Containment Berm.

This portable, flexible berm captures spillage before it has a chance to spread, making cleanup faster and easier.

Designed for use in both dry and wet weather conditions, the berms are fitted with mesh filters that allow rainwater to drain while keeping pellets and chips contained.

★ KEY FEATURES

- ✓ Catches plastic pellets, resin chips, nurdles, and other granules
- ✓ Mesh filter allows rainwater to pass through
- ✓ Secures to rail to prevent shifting
- ✓ Reduces waste and encourages environmental stewardship
