

# Husky PolyBack Oil Filter Pan

Simplify cleaning up persistent outdoor leaks  
and drips. **Set It. Forget It.®**

**REDUCE CLEANUP  
COSTS BY 50%**

## THE HUSKY ADVANTAGE

**Oil leaks and rainwater go in.  
Clean water filters out.**

Engineered for the rainiest conditions, the Spilltration® Husky PolyBack Pan contains and absorbs oils and fuels - while allowing rainwater to pass through.

- ✓ Reduces cleanup costs and saves hours of time.
- ✓ Spilltration® Husky fibers are made from 100% post-consumer recycled materials.
- ✓ UV-Resistant fibers are great for long-term, outdoor deployment.
- ✓ Guaranteed not to degrade in the sun for a full 24 months.
- ✓ Replaceable inner pads extend the life of the pan.

Impermeable polyback prevents oils and fuels from “bleeding” through onto the ground.

Husky Pad Liners add three super-thick layers of absorption and oil filtration protection.

Innovative microfilter weep holes in the base allow water to drain and not pool.

3 Husky filter liner pads for added oil absorption

Polyethylene backing prevents oil breakthrough

Microfilter weep holes allow clean water to filter through

**SPL086: Husky PolyBack Oil Filter Pan**  
17" x 17" (absorbs up to 2.6 gal./pan)

**SPL096: Husky PolyBack Oil Filter Pan**  
25" x 25" (absorbs up to 4.8 gal./pan)
