

SPILL SUPPLIES CHECKLIST

Each facility has different needs when it comes to spill response. Some facilities evacuate and call in a contracted response team while others train their employees to handle the spill from start to finish. Here's a peek at what most professional spill response teams have on hand. Chances are good that your facility doesn't need all of these items - but some may enhance your frontline employees' response capabilities.

1 SPILL CONTAINMENT

<input type="checkbox"/>	Absorbent dikes
<input type="checkbox"/>	Non-absorbent dikes
<input type="checkbox"/>	Husky Strips
