# Husky Track Mat

Simplify containing and cleaning up oil & fuel leaks with the most durable, longest-lasting absorbent track mat.

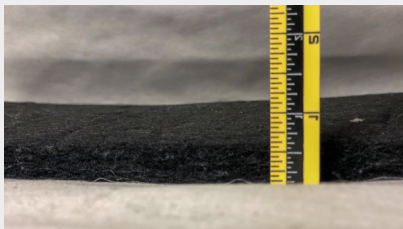

## Set It. Forget It.<sup>™</sup>

**Reduce change outs. Decrease remediation costs.**

HalenHardy Spilltration<sup>®</sup> Husky Track Mat is designed for the outdoors and engineered for the harshest of conditions.

Here's how you win with Husky Track Mat:

- ✓ **Filters Rain Water** - Holds onto oils and fuels, filters rain water, preventing oils and fuels from being lifted and carried into surrounding ballasts.
- ✓ **High Absorbent Capacity** - 2 to 3 times more absorbent than other competitive products.
- ✓ **Guaranteed for 2 Years** - Does not degrade in sunlight. UV-Resistant.
- ✓ **Cost-effective** - Easier, more effective, worry-free leak control and significant cost savings.
- ✓ **Made from Recycled Content** - Spilltration<sup>®</sup> Husky fibers are made from 100% post consumer waste.

Ultra-thick for great durability and absorbency. Will not rip and tear easily.

Polyethylene backing prevents the oil and fuel from "bleeding through" onto the ground.

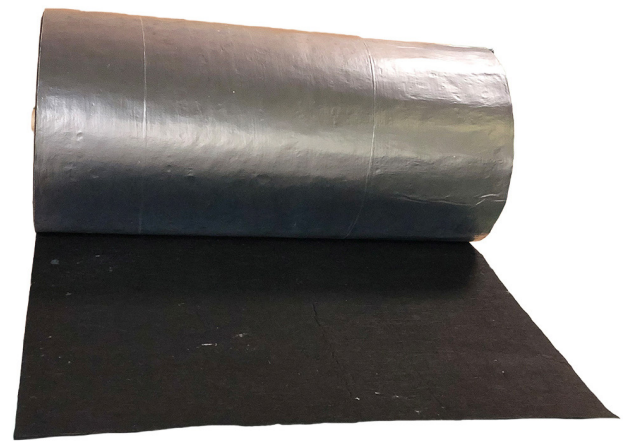

Spilltration<sup>®</sup> Husky Track Mat will last 2 to 4 times longer than traditional, absorbent track mats.

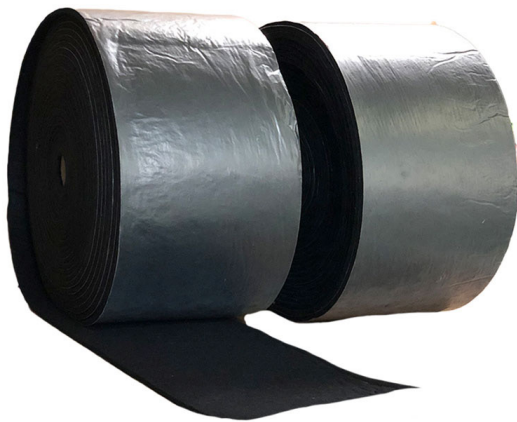

## Spilltration® Railroad Oil Leak & Spill Inner Track Mat: SPL122

Contain and absorb oil and fuel leaks and spills around your railroad tracks and cut your remediation costs in half with the durable, UV-resistant Spilltration Railroad Track Mat.

<b>SKU:</b>	SPL122
<b>Fluid Absorbed</b>	Oils, Fuels & Other Petroleum Products - Filters Water
